Ishan Sharma

Java Developer with 4.4 Years of Experience

📞 +91-8077106227   ✉ connectishansharma@gmail.com   in linkedin.com/in/connect-ishan-sharma

Technical Skills

Core Java: Collections, Multithreading, Streams API, Lambda, Generics, Java 8-21 Features
Java Frameworks: Spring Boot, Spring Data JPA, JUnit 5, Mockito, TestNG
Database & Java Integration: JDBC, JPA, MySQL, Oracle SQL, Transaction Management
Build & Tools: Maven, Gradle, Git, IntelliJ IDEA, Eclipse, GitHub, Jira
Java Enterprise: Servlets, JSP
Java Security: OAuth2, JWT, Java Cryptography, SSL/TLS

Professional Experience

LTIMindtree   **Sep 2022 – Present**
Senior Java Developer - CSAW-C Project (CitiBank)   *Pune, India*

- Developed robust Java applications using core Java 8-21 features, significantly improving application performance
- Implemented complex business logic using Java Collections Framework and Stream API for data processing
- Built RESTful web services using Spring MVC and Spring Boot, handling numerous endpoints with high uptime
- Designed and optimized database operations using JPA/Hibernate, substantially reducing query execution time
- Implemented comprehensive unit testing using JUnit 5 and Mockito, achieving extensive code coverage
- Organized code into clean, modular components for better readability and easier maintenance
- Integrated Spring Security with JWT for secure authentication, minimizing unauthorized access

LTIMindtree   **Aug 2021 – Sep 2022**
Java Developer - CSAW-FL Project (CitiBank)   *Pune, India*

- Developed Java backend applications using Spring Boot and Core Java
- Created efficient data access layer using Spring Data JPA and native SQL queries
- Implemented multithreading and concurrent programming for high-performance batch processing
- Built robust exception handling and logging using Java
- Mentored junior developers in Java best practices and design patterns

Java Projects

Enterprise Java Application | *Core Java, Spring Boot, JPA*   **2023**

- Developed a high-performance Java application processing numerous transactions per second using Java concurrency
- Implemented caching mechanisms and connection pooling to optimize database operations

Java-Based Alert System | *Spring Boot, JPA, Java Messaging*   **2022**

- Built a Java backend system processing thousands of daily alerts using Java multithreading and Spring scheduling
- Implemented batch alert closure module to close alerts in bulk at L1, L2, and L3 levels

Certifications & Achievements

Java Programming: A Comprehensive Bootcamp   **2025**

- Completed intensive Java programming course covering core concepts from basics to advanced topics (Udemy)
- Developed multiple Java applications demonstrating proficiency in OOP, collections, and multithreading

Master Microservices Certification   **2024**

- Mastered advanced concepts in Spring Boot, Spring Cloud, Docker, and Kubernetes (Udemy)
- Implemented hands-on projects focusing on microservices architecture and cloud-native applications

Professional Achievements   **2021-Present**

- Received multiple client appreciations and consistently promoted to handle larger projects with increased responsibilities
- Progressed from handling individual modules to managing critical enterprise-level applications

Education

Bharati Vidyapeeth College of Engineering   **2017 – 2021**
Bachelor of Technology in Electronics & Telecommunication   *Pune, India*
